

一、今日前沿论文精选

1. Myeloproliferative Neoplasms.

- 发表期刊 / 影响因子:The New England journal of medicine
- 发表时间:2026-Aug-20
- 第一/通讯作者:Isabelle Plo, William Vainchenker
- 核心结论:Classic myeloproliferative neoplasms, including essential thrombocythemia, polycythemia vera, and primary myelofibrosis, are chronic, clonal hematopoietic stem-cell disorders. These disorders are driven by gain-of-function mutations in the genes Janus kinase 2 (JAK2), calreticulin (CALR), or the thr...
- 原文DOI / 链接:10.1056/NEJMr2507867

2. In-house fabrication of a custom radiation positioning stent for surface-mold high-dose rate brachytherapy in buccal mucosa carcinoma: A technical note.

- 发表期刊 / 影响因子:Journal of cancer research and therapeutics
- 发表时间:2026-Apr-01
- 第一/通讯作者:Gunjan Chouksey, Pankaj Chauhan, Vipin Kharade, Mohammad Anas Ghori, Aman Dev
- 核心结论:Surface-mold high-dose-rate (HDR) brachytherapy (BT) offers an effective, organ-preserving alternative for early oral cavity carcinomas; however, achieving reproducible catheter placement in mobile intraoral sites remains challenging. To describe a simple, cost-effective, and reproducible method for...
- 原文DOI / 链接:10.4103/jcrt.jcrt_2184_25

3. Tumor-infiltrating lymphocytes density and distribution in breast cancer: A two-year study on their clinicopathological correlation.

- 发表期刊 / 影响因子:Journal of cancer research and therapeutics
- 发表时间:2026-Apr-01
- 第一/通讯作者:Yamuna Jayakumar, Latha Abraham, T S Subi, Teena Sreeba, Sanju Cyriac
- 核心结论:Tumor-infiltrating lymphocytes (TILs) are emerging as key biomarkers in invasive breast carcinoma (IBC), reflecting the host immune response and influencing prognosis. While TILs are well-studied globally, data from the Indian subcontinent remains scarce. This study assesses stromal TILs (sTILs) and...
- 原文DOI / 链接:10.4103/jcrt.jcrt_1656_25

4. Metabolic Dysfunction-associated Steatotic Liver Disease in Romania: A Multidisciplinary Position Paper on Prevalence, Clinical Spectrum, Prevention, Screening and Management.

- 发表期刊 / 影响因子:Journal of gastrointestinal and liver diseases : JGLD
- 发表时间:2026-Aug-18
- 第一/通讯作者:Liliana-Simona Gheorghe, Jeffrey V Lazarus, Heiner Wedemeyer, Nancy Reau, Corina Pop
- 核心结论:Metabolic dysfunction-associated steatotic liver disease (MASLD) is the most prevalent chronic liver disease globally and a rising cause of cirrhosis, hepatocellular carcinoma, liver transplantation, cardiovascular events and impaired quality of life. In Romania, a 30-33% adult prevalence would corr...
- 原文DOI / 链接:10.15403/jgld-7454

5. Safety of Day Case Percutaneous Liver Biopsies at a Tertiary Hospital in Nigeria.

- 发表期刊 / 影响因子:The Nigerian postgraduate medical journal
- 发表时间:2026-Sep-01
- 第一/通讯作者:Olusegun Adekanle, Olawumi Janet Kolawole, Oluwasegun Ijarotimi, Ibukunoluwa John Enesi, Dennis A Ndububa
- 核心结论:Percutaneous liver biopsy (PLB) is a procedure through which liver tissue is obtained for making the diagnosis of liver diseases. Most PLBs are performed as a day case procedure, and complications can occur. This study assessed the safety of PLBs as a day case procedure. A cross-sectional descriptiv...
- 原文DOI / 链接:10.4103/npmj.npmj_324_25

6. From Corpora to Co-Evolving Capabilities: Capability-Centric Data Design for Generalist Image Generation

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-18
- 第一/通讯作者:Xingjian Wang, Zhao Wang, Taihang Hu, Jun Zheng, Qing Jin
- 核心结论:Large-scale image generation has benefited from advances in data scale, quality, rebalancing, and recaptioning, yet conventional pipelines typically optimize task-specific datasets in isolation. A central challenge is not only how to curate each task-specific corpus, but also how to organize heterog...
- 原文DOI / 链接:https://arxiv.org/abs/2608.18076v1

7. On the Fragility of Self-Improving Agents: Variance, Task Order, and Underspecification

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-18
- 第一/通讯作者:Qinyuan Ye, Yu Li, Yada Pruksachatkun, Jiaxin Zhang, Chien-Sheng Wu
- 核心结论:Memory-based self-improving agents—those that learn from an online stream of tasks and improve over time by maintaining a textual memory bank—have shown great promise in recent literature. However, the reliability aspects of these methods have been critically overlooked. In this work, we conduct a...
- 原文DOI / 链接:https://arxiv.org/abs/2608.18066v1

8. On the Fragility of Self-Improving Agents: Variance, Task Order, and Underspecification

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-18

- 第一/通讯作者:Qinyuan Ye, Yu Li, Yada Pruksachatkun, Jiaxin Zhang, Chien-Sheng Wu
- 核心结论:Memory-based self-improving agents—those that learn from an online stream of tasks and improve over time by maintaining a textual memory bank—have shown great promise in recent literature. However, the reliability aspects of these methods have been critically overlooked. In this work, we conduct a...

二、科研公众号干货

说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取:- 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

三、每日高分经典精读

Metabolic dysfunction-associated steatotic liver disease (MASLD): a growing global health priority and a real challenge for the internist.

- 发表期刊 / 影响因子 / 总引用量:Internal and emergency medicine / 2026
- 研究背景与里程碑意义:MASLD has emerged as the most prevalent chronic liver disease worldwide, reflecting the global rise in metabolic disorders such as obesity and diabetes.
- 核心实验设计与方法:Narrative review of epidemiology, pathophysiology, diagnostic criteria, and management strategies for MASLD.
- 关键结论与行业影响:Internists play a central role in early detection and multidisciplinary management of MASLD to prevent progression to cirrhosis and hepatocellular carcinoma.
- 创新点:Pragmatic clinical framework for internists to screen, stage, and manage MASLD in routine practice.
- 原文DOI / 链接:<https://doi.org/10.1007/s11739-026-04461-4>

四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:Myeloproliferative Neoplasms.
