

一、今日前沿论文精选

1. Phase 1 Study of Anito-cel, a d-Domain BCMA CAR T Cell for Refractory or Recurrent Myeloma.

- 发表期刊 / 影响因子:The New England journal of medicine
- 发表时间:2026-Sep-24
- 第一/通讯作者:Matthew J Frigault, Binod Dhakal, Andrzej J Jakubowiak, Noopur Raje, Kamalika Banerjee
- 核心结论:Anitocabtagene autoleucl (anito-cel), a B-cell maturation antigen (BCMA)-directed autologous chimeric antigen receptor (CAR) T-cell therapy with a synthetic d-domain binder (ddBCMA), may have efficacy in patients with relapsed or refractory multiple myeloma. In a phase 1 study, we evaluated the saf...
- 原文DOI / 链接:10.1056/NEJMoa2603527

2. Tumor Immune Microenvironment and Response to Preoperative Chemoradiotherapy in Locally Advanced Rectal Cancer: Results From the STAR-01 Study Cohort.

- 发表期刊 / 影响因子:JCO precision oncology
- 发表时间:2026
- 第一/通讯作者:Francesca Negri, Lorena Bottarelli, Letizia Gnetti, Luca Boni, Nicoletta Campanini
- 核心结论:Preoperative chemoradiotherapy (CRT) can reshape the composition of the tumor immune microenvironment (TIME) in locally advanced rectal cancer (LARC), augmenting T-cell density and activation. As TIME may provide predictive insights, we analyzed the association of immune cell distribution and remode...
- 原文DOI / 链接:10.1200/PO-26-00278

3. Toll-like Receptor 2 Recognition of Microbiota Lipoproteins and Lipids in Immunity and Therapy.

- 发表期刊 / 影响因子:ACS chemical biology
- 发表时间:2026-Sep-23
- 第一/通讯作者:Xing Zhang, Natavan Dudkina, Adrianna M Turner, Howard C Hang
- 核心结论:Toll-like receptor 2 (TLR2) recognizes a remarkably diverse range of microbial molecules and plays central roles in host defense, immune homeostasis, and cancer immunotherapy. Although bacterial lipoproteins and lipopeptides are canonical TLR2 agonists, recent studies have identified additional micr...
- 原文DOI / 链接:10.1021/acscchembio.6c00498

4. Dietary Interventions for Metabolic Dysfunction-Associated Steatotic Liver Disease in Children and Adolescents: A Network Meta-Analysis of Randomized Clinical Trials.

- 发表期刊 / 影响因子:Nutrition reviews
- 发表时间:2026-Sep-23
- 第一/通讯作者:Miguel López-Moreno, Nuria Perez-Diaz-Del-Campo, Alberto Roldán-Ruiz, Gabriele Bertotti, Desirée Victoria-Montesinos
- 核心结论:Metabolic dysfunction-associated steatotic liver disease (MASLD) is the most prevalent chronic liver condition in children and adolescents, yet the comparative effectiveness of dietary strategies remains unclear. To compare the effects of different dietary interventions on liver enzymes and metaboli...
- 原文DOI / 链接:10.1093/nutrit/nuag135

5. AGA Clinical Practice Update on the Evaluation and Management of Metabolic Dysfunction- and Alcohol-Associated Liver Disease: Expert Review.

- 发表期刊 / 影响因子:Clinical gastroenterology and hepatology : the official clinical practice journal of the American Gastroenterological Association
- 发表时间:2026-Sep-22
- 第一/通讯作者:Juan Pablo Arab, Harmeet Malhi, Gerald Scott Winder, Robert J Fontana
- 核心结论:Steatotic liver disease (SLD) is the leading cause of chronic liver disease and liver-related mortality in the United States. The 2023 multisociety consensus nomenclature was intended to develop a more evidence-based framework regarding the differing forms of SLD, including metabolic dysfunction-ass...
- 原文DOI / 链接:10.1016/j.cgh.2026.07.027

6. SpeakerMem-R1: Speaker-Centered Dual-Track Memory for Multi-Party Dialogue

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-09-22
- 第一/通讯作者:Haobo Zheng, Tan Tang, Yan Chen, Weijie Wang, Yingcai Wu
- 核心结论:Long-term conversational memory in multi-party settings requires more than retrieving relevant content from long-term conversations: it must distinguish who said what, whom each statement concerns, how individuals perceive one another, what information is shared by the group, and how states change o...
- 原文DOI / 链接:https://arxiv.org/abs/2609.26780v1

7. CliffCompaction: Cost-Efficient Compaction for Long-Horizon Coding Agents

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-09-22
- 第一/通讯作者:Trang Nguyen, Eulrang Cho, Bingqing Chen, Tim Dettmers
- 核心结论:Agents often work on complex problems that require millions of tokens of context, which necessitates compacting across sessions due to limited context windows. We develop CliffCompaction, an autocompaction technique that reduces cost by up to 50% under a bounded context while maintaining or improv...
- 原文DOI / 链接:https://arxiv.org/abs/2609.26779v1

8. A Decentralized Partially Observable Team Decision Methodology with Delayed Information Sharing

- 发表期刊 / 影响因子:arXiv Preprint

- 发表时间:2026-09-22
- 第一/通讯作者:Xiaoxing Ren, Thomas Parisini, Andreas A. Malikopoulos
- 核心结论:We study decentralized partially observable team decision problems with low-rank latent dynamics and unknown system models. The proposed framework combines team-theoretic equivalence with low-rank model representations to address cooperative decision-making in partially observable Markov decision pr...
- 原文DOI / 链接:<https://arxiv.org/abs/2609.26783v1>

二、科研公众号干货

说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取:- 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

三、每日高分经典精读

Metabolic dysfunction-associated steatotic liver disease (MASLD): a growing global health priority and a real challenge for the internist.

- 发表期刊 / 影响因子 / 总引用量:Internal and emergency medicine / 2026
- 研究背景与里程碑意义:MASLD has emerged as the most prevalent chronic liver disease worldwide, reflecting the global rise in metabolic disorders such as obesity and diabetes.
- 核心实验设计与方法:Narrative review of epidemiology, pathophysiology, diagnostic criteria, and management strategies for MASLD.
- 关键结论与行业影响:Internists play a central role in early detection and multidisciplinary management of MASLD to prevent progression to cirrhosis and hepatocellular carcinoma.
- 创新点:Pragmatic clinical framework for internists to screen, stage, and manage MASLD in routine practice.
- 原文DOI / 链接:<https://doi.org/10.1007/s11739-026-04461-4>

四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:Phase 1 Study of Anito-cel, a d-Domain BCMA CAR T Cell for Refractory or Recurrent Myeloma.
