

一、今日前沿论文精选

1. Analysis of a case of immune-related pancreatitis induced by anti-PD-1 antibody therapy for gastric cancer: A case report.

- 发表期刊 / 影响因子:Medicine
- 发表时间:2026-Oct-09
- 第一/通讯作者:Fengyun Zhang, Wenhua Xiao
- 核心结论:Immune-related pancreatitis is a rare but clinically significant adverse event associated with immune checkpoint inhibitor therapy. Early recognition and appropriate management are essential to prevent potentially serious outcomes. Herein, we report a case of suspected immune-related pancreatitis du...
- 原文DOI / 链接:10.1097/MD.0000000000050285

2. Long-term survival with immune checkpoint inhibitors combined with bevacizumab in advanced clear cell renal cell carcinoma: A case report.

- 发表期刊 / 影响因子:Medicine
- 发表时间:2026-Oct-09
- 第一/通讯作者:Jing Zhang, Chun-Qiao Chen, Hui Huang, Zhi-Chao Yao, Xi Qin
- 核心结论:Renal cell carcinoma is a highly heterogeneous urological malignancy, with clear cell renal cell carcinoma (ccRCC) as the most common pathological subtype. A considerable proportion of patients are diagnosed at advanced stages or experience postoperative recurrence and distant metastasis, leading to...
- 原文DOI / 链接:10.1097/MD.0000000000051079

3. National trends in infection-related mortality among US cancer decedents in the immunotherapy era (1999-2023).

- 发表期刊 / 影响因子:Medicine
- 发表时间:2026-Oct-09
- 第一/通讯作者:Lu Jiang, Jundan Wang, Xuefei Yang, Ting Huang, Heran Zhou
- 核心结论:While immune checkpoint inhibitors (ICIs) have reshaped cancer care, population-level patterns of infection-related involvement at death among cancer decedents remain incompletely characterized. We analyzed >25 million US cancer deaths recorded in Centers for Disease Control and Prevention Wide-Rang...
- 原文DOI / 链接:10.1097/MD.0000000000051069

4. The cholesterol, high-density lipoprotein, and glucose index and its derivatives related to obesity and inflammation as novel metabolic markers for predicting new-onset cardiovascular-liver-metabolic multimorbidity: A prospective cohort study.

- 发表期刊 / 影响因子:Journal of diabetes investigation
- 发表时间:2026-Oct-09
- 第一/通讯作者:Zhonghua Sun, Aikeliyaer Ainiwaer, Yameng Xu, Ge Zhang, Xiangyu Sun
- 核心结论:Cardiovascular-liver-metabolic multimorbidity (CLMM), defined as the co-occurrence of at least two of cardiovascular disease, type 2 diabetes, and metabolic dysfunction-associated steatotic liver disease, is an increasing health burden. We evaluated the cholesterol, high-density lipoprotein, and glu...
- 原文DOI / 链接:10.1111/jdi.70462

5. Diabetes attenuates weight reduction-mediated liver fibrosis regression in persons with morbid obesity.

- 发表期刊 / 影响因子:Journal of diabetes investigation
- 发表时间:2026-Oct-09
- 第一/通讯作者:Daiki Matsubara, Yumie Takeshita, Masahiro Mori, Yujiro Nakano, Kenichi Harada
- 核心结论:Weight loss by laparoscopic sleeve gastrectomy (LSG) compared to medical weight loss (low-calorie diet: LCD) ameliorates diabetes and metabolic dysfunction-associated steatotic liver disease (MASLD). We aimed to evaluate changes in liver pathology 1-year after LSG and their associations with metabol...
- 原文DOI / 链接:10.1111/jdi.70465

6. On the estimation and validity of AI time horizons—a statistical look at the METR plot

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-10-08
- 第一/通讯作者:Drew T. Nguyen, William Fithian
- 核心结论:METR' s 50% time horizon measures the human completion time of software tasks that an AI solves with 50% probability, allowing AI capabilities to be expressed in interpretable units. On 228 tasks and 26 AIs, we recompute the time horizons using splines and item-response theory to relax the assumpti...
- 原文DOI / 链接:https://arxiv.org/abs/2610.12466v1

7. From Reactive Containment to Proactive Assurance: Lessons from OpenAI, Anthropic, and Google Agent Security Incidents

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-10-08
- 第一/通讯作者:Abbas Raftari
- 核心结论:In 2026, cybersecurity evaluations involving OpenAI, Anthropic, and Google agents reached real systems outside their authorized test scope. The paths were different. OpenAI agents exploited research infrastructure, coordinated across runs, and compromised parts of Hugging Face' s production environme...
- 原文DOI / 链接:https://arxiv.org/abs/2610.12463v1

8. CSF: Contextual Safety Filtering for Motion Generators

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-10-08
- 第一/通讯作者:Lizhi Yang, Yiling Hou, Yao Tang, Junheng Li, Daniel Weng

- 核心结论:Text-conditioned motion generators produce trackable whole-body motion, but they have no notion of scene-dependent safety: the same action may target an object or a person. Existing safeguards either inspect the prompt, require labeled motion data, or enforce geometric constraints; therefore, they d…
- 原文DOI / 链接:<https://arxiv.org/abs/2610.12467v1>

二、科研公众号干货

说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取:- 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

三、每日高分经典精读

Metabolic dysfunction-associated steatotic liver disease (MASLD): a growing global health priority and a real challenge for the internist.

- 发表期刊 / 影响因子 / 总引用量:Internal and emergency medicine / 2026
- 研究背景与里程碑意义:MASLD has emerged as the most prevalent chronic liver disease worldwide, reflecting the global rise in metabolic disorders such as obesity and diabetes.
- 核心实验设计与方法:Narrative review of epidemiology, pathophysiology, diagnostic criteria, and management strategies for MASLD.
- 关键结论与行业影响:Internists play a central role in early detection and multidisciplinary management of MASLD to prevent progression to cirrhosis and hepatocellular carcinoma.
- 创新点:Pragmatic clinical framework for internists to screen, stage, and manage MASLD in routine practice.
- 原文DOI / 链接:<https://doi.org/10.1007/s11739-026-04461-4>

四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:Analysis of a case of immune-related pancreatitis induced by anti-PD-1 antibody therapy for gastric cancer: A case report.
