

一、今日前沿论文精选

1. Engineered bacterial therapeutics from synthetic biology to clinical translation: A multi-database scientometric analysis, 2000-2026.

- 发表期刊 / 影响因子:Human vaccines & immunotherapeutics
- 发表时间:2026
- 第一/通讯作者:Hanyu Zhou, Jiaqi He, Jiabin Chen, Shuyu Ge, Ping Yu
- 核心结论:Engineered bacterial therapeutics integrate programmable strain engineering with biomedical functions such as sensing, delivery, immune modulation, microbiome intervention, and disease management. This study conducted a multi-database bibliometric analysis to map the knowledge structure, collaborati...
- 原文DOI / 链接:10.1080/21645515.2026.2720162

2. Salvage Hypofractionated Accelerated Versus Standard Radiotherapy for Biochemical Recurrence After Radical Prostatectomy: A Phase III Randomized Clinical Trial.

- 发表期刊 / 影响因子:Journal of clinical oncology : official journal of the American Society of Clinical Oncology
- 发表时间:2026-Aug-25
- 第一/通讯作者:Youngju Song, Won Park, Hongryull Pyo, Yeon Joo Kim, Hanjong Ahn
- 核心结论:To compare hypofractionated radiotherapy (RT) with conventional RT for treating biochemical recurrence following radical prostatectomy. Between 2019 and 2021, 316 patients with intermediate- to high-risk prostate cancer were randomly assigned to receive salvage RT with either 65 Gy in 26 fractions (...
- 原文DOI / 链接:10.1200/JCO-25-02234

3. Becotatug Vedotin Combined With Pucotenlimab in Platinum- and Immunotherapy-Resistant Recurrent or Metastatic Nasopharyngeal Carcinoma.

- 发表期刊 / 影响因子:Journal of clinical oncology : official journal of the American Society of Clinical Oncology
- 发表时间:2026-Aug-25
- 第一/通讯作者:Dan-Yun Ruan, Feng-Hua Wang, Yujuan Zhou, Yanqun Xiang, Jinguan Lin
- 核心结论:Patients with recurrent or metastatic nasopharyngeal carcinoma (R/M NPC) have limited therapeutic options after failing platinum and anti-PD-1/PD-L1 therapy. We investigated the efficacy and safety of an epidermal growth factor receptor (EGFR)-directed antibody-drug conjugate (ADC) becotatug vedotin...
- 原文DOI / 链接:10.1200/JCO-26-00640

4. Bidirectional fermentation of Tremella fuciformis and Acanthopanax trifoliatum alleviates lipid accumulation in LO2 cells.

- 发表期刊 / 影响因子:Food & function
- 发表时间:2026-Aug-25
- 第一/通讯作者:Yuxiao Wu, Sini Chen, Yueqiu Chen, Qian Yu, Jiayin Li
- 核心结论:Metabolic dysfunction-associated steatotic liver disease (MASLD) is a prevalent metabolic disorder with limited intervention. This study developed a bidirectional fermentation system combining Tremella fuciformis and Acanthopanax trifoliatum (TF-AT) to enhance metabolite biotransformation and bioact...
- 原文DOI / 链接:10.1039/d6fo02892f

5. The Changing Indications for Adult Liver Transplantation in Australia: A Narrative Review.

- 发表期刊 / 影响因子:The Medical journal of Australia
- 发表时间:2026
- 第一/通讯作者:Fadak Mohammadi, Alan J Wigg, Ken Liu, Simone I Strasser
- 核心结论:Adult liver transplantation practice in Australia and New Zealand has changed substantially over the past decade in response to shifting liver disease epidemiology and advances in donor organ preservation. Alcohol-related liver disease and metabolic dysfunction-associated steatotic liver disease hav...
- 原文DOI / 链接:10.5694/mja2.70276

6. How to Train a Critic Stably and Efficiently

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-24
- 第一/通讯作者:Penghui Qi, Xiangxin Zhou, Wee Sun Lee
- 核心结论:Group-based reinforcement learning methods such as GRPO for large language models avoid training a critic by sampling multiple responses for each prompt. A reliable critic could instead estimate token-level advantages from one response, but standard critic-based training recipes are often unstable...
- 原文DOI / 链接:https://arxiv.org/abs/2608.2356v1

7. ReWorld: An Interactive World Model with Long-Horizon Memory

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-24
- 第一/通讯作者:Zhifei Chen, Luozhou Wang, Guibao Shen, Dongyu Yan, Shuai Yang
- 核心结论:An interactive world model must follow the user's actions, remember the places it has shown, and stream in real time. The tension is structural: control wants a short horizon, memory wants an unbounded one. ReWorld separates the two during training and bounds them at inference. Mixed per-head attent...
- 原文DOI / 链接:https://arxiv.org/abs/2608.2356v1

8. How to Train a Critic Stably and Efficiently

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-24
- 第一/通讯作者:Penghui Qi, Xiangxin Zhou, Wee Sun Lee

- 核心结论:Group-based reinforcement learning methods such as GRPO for large language models avoid training a critic by sampling multiple responses for each prompt. A reliable critic could instead estimate token-level advantages from one response, but standard critic-based training recipes are often unstable….
- 原文DOI / 链接:<https://arxiv.org/abs/2608.23566v1>

二、科研公众号干货

说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取:- 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

三、每日高分经典精读

Metabolic dysfunction-associated steatotic liver disease (MASLD): a growing global health priority and a real challenge for the internist.

- 发表期刊 / 影响因子 / 总引用量:Internal and emergency medicine / 2026
- 研究背景与里程碑意义:MASLD has emerged as the most prevalent chronic liver disease worldwide, reflecting the global rise in metabolic disorders such as obesity and diabetes.
- 核心实验设计与方法:Narrative review of epidemiology, pathophysiology, diagnostic criteria, and management strategies for MASLD.
- 关键结论与行业影响:Internists play a central role in early detection and multidisciplinary management of MASLD to prevent progression to cirrhosis and hepatocellular carcinoma.
- 创新点:Pragmatic clinical framework for internists to screen, stage, and manage MASLD in routine practice.
- 原文DOI / 链接:<https://doi.org/10.1007/s11739-026-04461-4>

四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:Engineered bacterial therapeutics from synthetic biology to clinical translation: A multi-database scientometric analysis, 2000-2026.
