## 一、今日前沿论文精选

**1. TCR clonotyping of paired blood and tonsillar T-follicular cells reveals the mixed origin of CD38high Tfrs.**

- 发表期刊 / 影响因子:Frontiers in immunology
- 发表时间:2026
- 第一/通讯作者:Sophiya R Sokolova, Vladimir A Grigoriants, Irina A Shagina, Ekaterina V Barsova, Maria A Nomerovskaya
- 核心结论:Circulating T follicular regulatory (cTfr) cells are measured as blood biomarkers after vaccination, in autoimmune disease (e.g., lupus, rheumatoid arthritis) and cancer immunotherapy, yet whether they originate from natural Tregs (yielding nTfr) or germinal center T follicular helper (GC Tfh) cells…
- 原文DOI / 链接:10.3389/fimmu.2026.1947623

**2. A novel CAF-related gene signature for prognostic and immunotherapy response prediction in PDAC based on single-cell RNA-seq and bulk RNA-seq data.**

- 发表期刊 / 影响因子:Frontiers in pharmacology
- 发表时间:2026
- 第一/通讯作者:Xuezhi Du, Zesheng Li, Yuwei Wang, Lei Han, Jinjin Sun
- 核心结论:Increasing evidence shows that cancer-associated fibroblasts (CAFs) contribute to tumor progression, create an immunosuppressive microenvironment, and promote resistance to immunotherapy. However, the CAF-related gene signature in pancreatic ductal adenocarcinoma (PDAC) remains largely unexplored. I…
- 原文DOI / 链接:10.3389/fphar.2026.1873756

**3. Tumor-antigen-specific polyclonal antibodies suppress tumor growth and metastasis in heterogeneous solid tumors.**

- 发表期刊 / 影响因子:Frontiers in oncology
- 发表时间:2026
- 第一/通讯作者:Carine Ciron, Ophélie Dauphouy, Pierre Morice, Pierre-Joseph Royer, Gwenaëlle Evanno
- 核心结论:Tumor heterogeneity and signaling redundancy limit the efficacy of monospecific antibody therapies in solid malignancies. Here we used our platform of glyco-humanized polyclonal antibodies (GH-pAb), to investigate whether targeting multiple tumor-associated antigens provides integrated anti-tumor ac…
- 原文DOI / 链接:10.3389/fonc.2026.1947593

**4. Th17/Treg imbalance and clinical characteristics in psoriasis patients with metabolic dysfunction-associated steatotic liver disease: a cross-sectional analysis.**

- 发表期刊 / 影响因子:Frontiers in immunology
- 发表时间:2026
- 第一/通讯作者:Sai Dong, Zixuan Qiu, Zheng Zhao, Hui Bao, Xiaoyang Liu
- 核心结论:Psoriasis is a chronic systemic inflammatory disease that imposes a considerable burden of metabolic comorbidities. Metabolic dysfunction-associated steatotic liver disease (MASLD) is particularly common among patients with psoriasis, which may be attributed to shared metabolic and immune-inflammato…
- 原文DOI / 链接:10.3389/fimmu.2026.1958145

**5. Population-specific transcriptomic bioactivity assessment of perfluorooctanoic acid using human liver spheroids and physiologically based toxicokinetic modeling.**

- 发表期刊 / 影响因子:Archives of toxicology
- 发表时间:2026-Oct-23
- 第一/通讯作者:Dunja Kokai, Katarina Borkovic, Marija Kostic, Nemanja Todorovic, Mladena Lalic-Popovic
- 核心结论:Perfluorooctanoic acid (PFOA) has been widely used in industrial and consumer products and was recently classified as a Group 1 carcinogen by the International Agency for Research on Cancer. However, uncertainties remain regarding transcriptomic bioactivity thresholds associated with liver effects a…
- 原文DOI / 链接:10.1007/s00204-026-04579-6

**6. Direct Pass@$k$ Optimization for Thought Pruning: Balancing Quality and Diversity in Test-Time Reasoning**

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-10-22
- 第一/通讯作者:Mahdi Salmani, Adel Javanmard, Devansh Gupta, Meisam Razaviyayn
- 核心结论:Test-time scaling has emerged as a key inference strategy for reasoning models, where a model generates a large number of candidate solutions in the hope of finding at least one correct solution. Running all candidate solutions to completion can be computationally demanding, so recent work prunes th…
- 原文DOI / 链接:https://arxiv.org/abs/2610.31667v1

**7. Cost-Aware Abstention for LLM-Based IT Ticket Classification**

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-10-22
- 第一/通讯作者:Sachin Gupta
- 核心结论:Wrong automatic routing of an IT support ticket can cost more than human triage. We evaluate cost-aware abstention as an offline, cost-conditional readiness assessment: select a routing policy on calibration data under explicit costs, then evaluate that frozen policy once on held-out test data. On a…
- 原文DOI / 链接:https://arxiv.org/abs/2610.31657v1

**8. Sensorimotor Alignment: A Platonic Proxy for Embodied Policy Success**

- 发表期刊 / 影响因子:arXiv Preprint

- 发表时间:2026-10-22
- 第一/通讯作者:Yunfei Xie, Howard H. Qian, Shiyi Lan, Kaiyu Hang, Chen Wei
- 核心结论:Robotic foundation models are typically evaluated through costly closed-loop rollouts, which motivates cheap offline proxies for model capability. The Platonic Representation Hypothesis (PRH) suggests that as representations improve, different modalities such as vision and language converge toward a…
- 原文DOI / 链接:https://arxiv.org/abs/2610.31670v1

## 二、科研公众号干货

*说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取:* - 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

## 三、每日高分经典精读

**Stereotactic Body Radiation Therapy for Hepatocellular Carcinoma: Current Trends and Future Directions**

- 发表期刊 / 影响因子 / 总引用量:International Journal of Radiation Oncology, Biology, Physics / IF=7.0 / 引用量:200+
- 研究背景与里程碑意义:SBRT has emerged as a definitive local treatment for HCC, but optimal dosing, patient selection, and integration with systemic therapies remain active areas of investigation.
- 核心实验设计与方法:Comprehensive review of clinical trials and retrospective studies of SBRT for HCC, including dose-escalation studies, toxicity analyses, and combination strategies.
- 关键结论与行业影响:SBRT achieves local control rates of 80-95% for early-stage HCC with low toxicity. Challenges include BCLC stage-specific outcomes, liver function preservation, and optimal sequencing with immune checkpoint inhibitors.
- 创新点:Systematic framework for SBRT dose selection based on tumor size, location, and liver function; proposed risk-adapted fractionation schedules.
- 原文DOI / 链接:https://doi.org/10.1016/j.ijrobp.2023.01.045

## 四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:TCR clonotyping of paired blood and tonsillar T-follicular cells reveals the mixed origin of CD38high Tfrs.
