

一、今日前沿论文精选

1. Latent Class Analysis-Derived Classification and Cancer-Specific Death in Endometrial Carcinoma: A Population-Based Cohort Study.

- 发表期刊 / 影响因子:JCO precision oncology
- 发表时间:2026
- 第一/通讯作者:Suojian Zhao, Jing Cheng, Hua Wang, Qiuji Wu
- 核心结论:Molecular classifications have advanced prognostic stratification in endometrial carcinoma (EC), but they do not explicitly account for cause-specific mortality (CSM) and host-clinical context. We aimed to derive a clinically accessible classification that links demographic/clinicopathologic feature...
- 原文DOI / 链接:10.1200/PO-26-00393

2. Primary pulmonary mucosa-associated lymphoid tissue lymphoma presenting as a right hilar mass: A case report.

- 发表期刊 / 影响因子:Medicine
- 发表时间:2026-Oct-02
- 第一/通讯作者:Liyuan Fu, Taipeng Zeng, Chengkun Hong, Yuhang Zhang, Hao Huang
- 核心结论:Primary pulmonary lymphoma (PPL) is an extremely rare malignant lung tumor that is frequently misdiagnosed as pneumonia or lung cancer due to its atypical radiological and clinical presentation. The rationale of this report is to elucidate the diagnostic value of combining computed tomography (CT) a...
- 原文DOI / 链接:10.1097/MD.00000000000051002

3. Cost-effectiveness of pembrolizumab plus chemoradiotherapy versus placebo plus chemoradiotherapy for high-risk locally advanced cervical cancer in Saudi Arabia: A model-based economic evaluation.

- 发表期刊 / 影响因子:Medicine
- 发表时间:2026-Oct-02
- 第一/通讯作者:Ziyad S Almalki, Ahmad A Alamer, Shaheed K Alhumaid, Abdulrahman A Alsuhbani, Bandar S Alghamdi
- 核心结论:Adding pembrolizumab to standard concurrent chemoradiotherapy (CCRT) has shown substantial survival benefits in newly diagnosed, high-risk locally advanced cervical cancer (LACC), but its economic value in Saudi Arabia has not been established. This study assessed the cost-effectiveness of pembroliz...
- 原文DOI / 链接:10.1097/MD.00000000000050990

4. Three-decade trends in nonalcoholic fatty liver disease across 204 countries and territories: An age-period-cohort analysis from 1990 to 2021.

- 发表期刊 / 影响因子:Medicine
- 发表时间:2026-Oct-02
- 第一/通讯作者:Meiying Zheng, Meng Zou, Haiying Chen, Luyao Gong, Na Wang
- 核心结论:Nonalcoholic fatty liver disease (NAFLD) has emerged as a leading chronic liver disease globally, driven by the rising incidence of obesity, type 2 diabetes, and metabolic syndrome. Despite the increasing burden, most studies focus on prevalence rather than incidence, leaving a gap in understanding...
- 原文DOI / 链接:10.1097/MD.00000000000050989

5. Integrating tongue image and health examination records for MASLD risk prediction via multimodal deep learning: A prospective diagnostic accuracy study.

- 发表期刊 / 影响因子:Medicine
- 发表时间:2026-Oct-02
- 第一/通讯作者:Xiaohua Hu, Jia Shi, Zhehong Zhang, Jing Qiu, Wenyi Pei
- 核心结论:Metabolic dysfunction-associated steatotic liver disease (MASLD) is a growing global health concern, but its early detection remains limited by the cost and accessibility of conventional diagnostic tools. This study aimed to develop an interpretable multimodal deep learning framework for MASLD class...
- 原文DOI / 链接:10.1097/MD.00000000000050918

6. One Basis to Animate Them All: Gaussian Blendshape Distillation for Real-Time Avatars

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-10-01
- 第一/通讯作者:Ramazan Fazylov, Stamatis Lefkimmatis, Ivan Laptev
- 核心结论:3D Gaussian avatars support fast rendering, however, their real-time animation is often challenged by the costly neural inference. We address this bottleneck and show that the animation of pretrained avatar models can be closely approximated by a linear combination of identity-independent blendshape...
- 原文DOI / 链接:https://arxiv.org/abs/2610.02207v1

7. KaliBench: A Fine-Grained Benchmark for Cybersecurity Tool Use on Kali Linux with Runtime-Free Verifiable Rewards

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-10-01
- 第一/通讯作者:Pengfei Li, Naufal Suryanto, Sicheng Zhang, Muzammal Naseer
- 核心结论:LLMs are increasingly applied to cybersecurity workflows, where they are expected to translate analysts' intent into tool invocations. However, existing evaluations focus on knowledge-based assessments or end-to-end agentic tasks, and do not directly measure LLMs' ability to generate executable comm...
- 原文DOI / 链接:https://arxiv.org/abs/2610.02206v1

8. One Basis to Animate Them All: Gaussian Blendshape Distillation for Real-Time Avatars

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-10-01

- 第一/通讯作者:Ramazan Fazylov, Stamatis Lefkimmatis, Ivan Laptev
- 核心结论:3D Gaussian avatars support fast rendering, however, their real-time animation is often challenged by the costly neural inference. We address this bottleneck and show that the animation of pretrained avatar models can be closely approximated by a linear combination of identity-independent blendshape...
- 原文DOI / 链接:<https://arxiv.org/abs/2610.02207v1>

二、科研公众号干货

说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取:- 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

三、每日高分经典精读

Stereotactic Body Radiation Therapy for Hepatocellular Carcinoma: Current Trends and Future Directions

- 发表期刊 / 影响因子 / 总引用量:International Journal of Radiation Oncology, Biology, Physics / IF=7.0 / 引用量:200+
- 研究背景与里程碑意义:SBRT has emerged as a definitive local treatment for HCC, but optimal dosing, patient selection, and integration with systemic therapies remain active areas of investigation.
- 核心实验设计与方法:Comprehensive review of clinical trials and retrospective studies of SBRT for HCC, including dose-escalation studies, toxicity analyses, and combination strategies.
- 关键结论与行业影响:SBRT achieves local control rates of 80-95% for early-stage HCC with low toxicity. Challenges include BCLC stage-specific outcomes, liver function preservation, and optimal sequencing with immune checkpoint inhibitors.
- 创新点:Systematic framework for SBRT dose selection based on tumor size, location, and liver function; proposed risk-adapted fractionation schedules.
- 原文DOI / 链接:<https://doi.org/10.1016/j.ijrobp.2023.01.045>

四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:Latent Class Analysis-Derived Classification and Cancer-Specific Death in Endometrial Carcinoma: A Population-Based Cohort Study.
