

一、今日前沿论文精选

1. Selective Packaging of miR-22 and miR-29 Orthologues into Extracellular Vesicles of the Porcine Whipworm Trichuris Suis.

- 发表期刊 / 影响因子:Journal of extracellular vesicles
- 发表时间:2026
- 第一/通讯作者:Bradley Whitehead, Maibritt Mardahl, Eline P Hansen, Bastian Fromm, Anne Borup
- 核心结论:Helminths modulate host immunity, and in this respect, the porcine whipworm Trichuris suis has been explored clinically as an immunotherapy for inflammatory diseases. T. suis secretes a complex mixture of excretory/secretory products (ESP), including extracellular vesicles (EVs), nanosized membranou...
- 原文DOI / 链接:10.1002/jev2.70351

2. Effectiveness and Safety of PD-1 Inhibitor Rechallenge After Prior Immunotherapy in Patients Aged ≥ 60 Years with Advanced Non-Small-Cell Lung Cancer: A Single-Center Retrospective Study.

- 发表期刊 / 影响因子:Drugs - real world outcomes
- 发表时间:2026-Aug-29
- 第一/通讯作者:Xiao-Yue Jiang, Xin Li, Hui Huang, Min Pan, Qiu-Qiu Chen
- 核心结论:Evidence regarding the effectiveness and safety of PD-1 inhibitor rechallenge in older patients with advanced non-small-cell lung cancer (NSCLC) previously exposed to immunotherapy remains limited. This study evaluated the effectiveness and safety of PD-1 inhibitor monotherapy rechallenge in patient...
- 原文DOI / 链接:10.1007/s40801-026-00578-2

3. Hemostatic single-fraction 8 Gy radiotherapy for tumor bleeding: a single-centre retrospective study.

- 发表期刊 / 影响因子:Japanese journal of radiology
- 发表时间:2026-Aug-29
- 第一/通讯作者:Kenji Makita, Hidenari Hirata, Masaki Nakamura, Yuichi Hiroshima, Masashi Wakabayashi
- 核心结论:The efficacy of single-fraction 8 Gy radiotherapy (RT) for achieving hemostasis remains unclear. In this study, we assessed (1) hemostatic efficacy, (2) rebleeding, and (3) factors related to hemostatic efficacy and rebleeding associated with single-fraction 8 Gy RT. Patients with tumor bleeding who...
- 原文DOI / 链接:10.1007/s11604-026-02061-y

4. Mapping GLP-1 receptor agonist research across the MASLD-MASH-HCC continuum: a bibliometric and translational analysis.

- 发表期刊 / 影响因子:Frontiers in medicine
- 发表时间:2026
- 第一/通讯作者:Yannan Xie, Xusheng Zhang, Bendong Chen
- 核心结论:Metabolic dysfunction increasingly shapes the burden of hepatocellular carcinoma (HCC) by linking obesity, type 2 diabetes, insulin resistance, and metabolic dysfunction-associated steatotic liver disease (MASLD) to steatohepatitis, fibrosis, cirrhosis, and HCC. GLP-1 receptor agonists (GLP-1RAs) ta...
- 原文DOI / 链接:10.3389/fmed.2026.1913929

5. Metabolic dysfunction-associated steatotic liver disease as a systemic disorder: extrahepatic manifestations and the need for data-driven phenotyping.

- 发表期刊 / 影响因子:Frontiers in endocrinology
- 发表时间:2026
- 第一/通讯作者:Sergejs Lobanovs, Maksims Jakovenko, Jelena Ivanova, Jekaterina Nagaiceva, Jurijs Čižovs
- 核心结论:Metabolic dysfunction-associated steatotic liver disease (MASLD) is increasingly recognized as a systemic disorder that extends beyond hepatic steatosis to involve multiple extrahepatic organs, including the cardiovascular system, kidneys, brain, pancreas, and other organ systems. This multisystem i...
- 原文DOI / 链接:10.3389/fendo.2026.1873215

6. WikiSkill: Compiling Agent Experience into Persistent Knowledge for Skill Evolution

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-27
- 第一/通讯作者:Liyan Tang, Cyrus Rashtchian, Chun-Sung Ferng, Andrew Tomkins, Da-Cheng Juan
- 核心结论:Agent skills package specialized knowledge and workflows into reusable resources that extend AI agent capabilities. Recent work automatically discovers such skills from agent experience, which enables agents to progressively adapt through interaction. However, the insights that guide skill developme...
- 原文DOI / 链接:https://arxiv.org/abs/2608.27454v1

7. SWE-Prime: Fewer Trajectories, Better Performance

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-27
- 第一/通讯作者:Dewu Zheng, Ruizhe Ye, Yanlin Wang, Yang Ye, Hongyu Zhang
- 核心结论:To improve large language models' ability to resolve real-world software issues, prior work has focused on constructing large-scale agent trajectory datasets and performing supervised fine-tuning (SFT) on successful trajectories. However, task success does not guarantee high-quality supervision: suc...
- 原文DOI / 链接:https://arxiv.org/abs/2608.27449v1

8. Learning a Continuous Sepsis Severity Score Without Hour-by-Hour Supervision: A Two-Site Retrospective Study

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-27

- 第一/通讯作者:Kevin Zhu, Ryan Zhang, Baraa Abed, Tilendra Choudhary, Malvern Madondo
- 核心结论:Currently used sepsis severity indices rely on fixed variables and weights established decades ago, which are coarsely discretized and calibrated to a cohort that no longer reflects contemporary critical care. No alternative learned directly from patient trajectories is in routine use. We conducted...
- 原文DOI / 链接:<https://arxiv.org/abs/2608.27421v1>

二、科研公众号干货

说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取:- 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

三、每日高分经典精读

Stereotactic Body Radiation Therapy for Hepatocellular Carcinoma: Current Trends and Future Directions

- 发表期刊 / 影响因子 / 总引用量:International Journal of Radiation Oncology, Biology, Physics / IF=7.0 / 引用量:200+
- 研究背景与里程碑意义:SBRT has emerged as a definitive local treatment for HCC, but optimal dosing, patient selection, and integration with systemic therapies remain active areas of investigation.
- 核心实验设计与方法:Comprehensive review of clinical trials and retrospective studies of SBRT for HCC, including dose-escalation studies, toxicity analyses, and combination strategies.
- 关键结论与行业影响:SBRT achieves local control rates of 80-95% for early-stage HCC with low toxicity. Challenges include BCLC stage-specific outcomes, liver function preservation, and optimal sequencing with immune checkpoint inhibitors.
- 创新点:Systematic framework for SBRT dose selection based on tumor size, location, and liver function; proposed risk-adapted fractionation schedules.
- 原文DOI / 链接:<https://doi.org/10.1016/j.ijrobp.2023.01.045>

四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:Selective Packaging of miR-22 and miR-29 Orthologues into Extracellular Vesicles of the Porcine Whipworm Trichuris Suis.
