每日医学科研精读日报 | 2026年11月11日

一、今日前沿论文精选

1. Treatment of Recurrent and/or Metastatic Nasopharyngeal Carcinoma: CSCO and ASCO Joint Guideline.

- 发表期刊 / 影响因子:Journal of clinical oncology : official journal of the American Society of Clinical Oncology
- 发表时间:2026-Nov-10
- 第一/通讯作者:Wei Jiang, Nofisat Ismaila, Melvin Lk Chua, Robert Haddad, Quynh-Thu Le
- 核心结论:To provide evidence-based recommendations on first- and subsequent-line systemic therapy, maintenance therapy, locoregional consolidation, and salvage local therapy for patients with recurrent and/or metastatic nasopharyngeal carcinoma (NPC). A multidisciplinary Expert Panel convened by CSCO and ASC…
- 原文DOI / 链接:10.1200/JCO-26-02650

2. Treatment of Stage IB to III Nasopharyngeal Carcinoma: CSCO-ASCO Guideline Update.

- 发表期刊 / 影响因子:Journal of clinical oncology : official journal of the American Society of Clinical Oncology
- 发表时间:2026-Nov-10
- 第一/通讯作者:Yu-Pei Chen, Nofisat Ismaila, Shao Hui Huang, Wei Jiang, Brigette Ma
- 核心结论:To update the 2021 CSCO-ASCO guideline on chemotherapy in combination with radiotherapy for the definitive treatment of non-metastatic nasopharyngeal carcinoma (NPC), incorporating new evidence on radiotherapy techniques and target-volume de-escalation, chemotherapy regimens and their sequencing, ad…
- 原文DOI / 链接:10.1200/JCO-26-02648

3. Safety and efficacy of transurethral resection of the prostate before external beam radiotherapy in patients with prostate cancer and lower urinary tract symptoms.

- 发表期刊 / 影响因子:The Journal of urology
- 发表时间:2026-Nov-10
- 第一/通讯作者:Casper Vrij, Harman Maxim Bruins, Kevin Rademakers, Tom Hermans, Elisabeth Jm Driessen
- 核心结论:To describe the safety and efficacy of planned transurethral resection of the prostate (TURP) prior to external beam radiotherapy (EBRT) in patients with prostate cancer and lower urinary tract symptoms. Patients who underwent TURP ⩽9 months before EBRT between March 2015 and March 2025 were include…
- 原文DOI / 链接:10.1097/JU.0000000000005388

4. Current evidence of real-world experience with resmetirom in clinical practice in the United States: a targeted literature review.

- 发表期刊 / 影响因子:Expert review of gastroenterology & hepatology
- 发表时间:2026-Nov-10
- 第一/通讯作者:Naim Alkhouri, Christina M Parrinello, John O’ donnell, Yestle Kim, Bridget Healy
- 核心结论:Metabolic dysfunction-associated steatotic liver disease is the most common chronic liver disease globally and progresses to metabolic dysfunction-associated steatohepatitis (MASH) in up to 30% of individuals. In 2024, the thyroid hormone receptor β agonist resmetirom became the first pharmacotherap…
- 原文DOI / 链接:10.1080/17474124.2026.2760386

5. Effects of Bacterial-Derived Extracellular Vesicles in Rodent Models of Obesity, Metabolic Dysfunction-Associated Steatotic Liver Disease and Insulin Resistance/type 2 Diabetes. A Systematic Review.

- 发表期刊 / 影响因子:Probiotics and antimicrobial proteins
- 发表时间:2026-Nov-10
- 第一/通讯作者:Laura Arellano-García, Iñaki Milton-Laskibar, María Puy Portillo, Saioa Gomez-Zorita
- 核心结论:Obesity, metabolic-associated steatotic liver disease (MASLD) and insulin resistance/type II diabetes (IR/T2D) share gut microbiota dysbiosis as an etiological factor. Bacteria-derived extracellular vesicles (EVs) have emerged as a promising strategy to modulate gut microbiota composition. To system…
- 原文DOI / 链接:10.1007/s12602-026-11295-1

6. HiVe-Mem: Interleaving Horizontal Memory Expansion and Vertical Evidence Composition for Multimodal Agents

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-11-09
- 第一/通讯作者:Haozhen Zhang, Bohan Liu, Jianzhu Bao, Qingyuan Liu, Haodong Yue
- 核心结论:As multimodal agents accumulate increasingly long interaction histories, effectively retrieving and utilizing past information becomes critical for long-term interaction. Existing memory systems typically rely on semantic retrieval over compressed memories and expose predefined representations, whic…
- 原文DOI / 链接:https://arxiv.org/abs/2611.12872v1

7. Shortcuts and Boundaries: Verifiable RL Misalignment and Contextual Safety Learning

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-11-09
- 第一/通讯作者:Xinjie Shen
- 核心结论:Reinforcement learning (RL) can improve an agent’ s task capability while reinforcing behavior that violates contextual execution requirements. We study this reward-driven misalignment, including reward hacking, through verifiable reward–context conflicts, where compliant task completion remains fea…
- 原文DOI / 链接:https://arxiv.org/abs/2611.12865v1

8. Guiding Data Allocation for Robust Subpopulation Generalization

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-11-09
- 第一/通讯作者:Zhaoying Pan, Yipei Wang, Shenyu Lu, Xiaoqian Wang
- 核心结论:Machine learning models often achieve high average accuracy in the training data while performing poorly on test data due to subpopulation shift. A common data-centric solution is to enforce balanced subgroup proportions, but full balance can be costly, infeasible, and not always necessary. In this…
- 原文DOI / 链接:https://arxiv.org/abs/2611.12884v1

二、科研公众号干货

说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取: - 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

三、每日高分经典精读

Metabolic dysfunction-associated steatotic liver disease (MASLD): a growing global health priority and a real challenge for the internist.

- 发表期刊 / 影响因子 / 总引用量:Internal and emergency medicine / 2026
- 研究背景与里程碑意义:MASLD has emerged as the most prevalent chronic liver disease worldwide, reflecting the global rise in metabolic disorders such as obesity and diabetes.
- 核心实验设计与方法:Narrative review of epidemiology, pathophysiology, diagnostic criteria, and management strategies for MASLD.
- 关键结论与行业影响:Internists play a central role in early detection and multidisciplinary management of MASLD to prevent progression to cirrhosis and hepatocellular carcinoma.
- 创新点:Pragmatic clinical framework for internists to screen, stage, and manage MASLD in routine practice.
- 原文DOI / 链接:https://doi.org/10.1007/s11739-026-04461-4

四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:Treatment of Recurrent and/or Metastatic Nasopharyngeal Carcinoma: CSCO and ASCO Joint Guideline.
