

一、今日前沿论文精选

1. Addressing socioeconomic barriers to immunotherapy access for non-small cell lung cancer in Japan.

- 发表期刊 / 影响因子:Immunotherapy
- 发表时间:2026-Sep-22
- 第一/通讯作者:Hiroe Suzuki-Chiba, Atsushi Miyawaki
- 核心结论:参见原文摘要
- 原文DOI / 链接:10.1080/1750743X.2026.2735709

2. First-line management of unresectable hepatocellular carcinoma: clinical perspectives from the CheckMate 9DW study.

- 发表期刊 / 影响因子:Future oncology (London, England)
- 发表时间:2026-Sep-22
- 第一/通讯作者:Bruno Sangro, Peter Galle, David Tai, Thomas Yau
- 核心结论:In this podcast, over a series of four parts, the authors provide an overview of the CheckMate 9DW study (NCT04039607) in hepatocellular carcinoma (HCC) and their opinions on how it impacts the treatment landscape for first-line unresectable HCC. The first two parts provide an overview of the primar...
- 原文DOI / 链接:10.1080/14796694.2026.2726118

3. Plain language summary of the RELATIVITY-098 study results: nivolumab plus relatlimab given after melanoma is removed by surgery.

- 发表期刊 / 影响因子:Future oncology (London, England)
- 发表时间:2026-Sep-22
- 第一/通讯作者:Georgina V Long, Charlie Garnett-Benson, Sonia Dolfi, Paolo A Ascierto, Jun Guo
- 核心结论:参见原文摘要
- 原文DOI / 链接:10.1080/14796694.2026.2721180

4. Anti-Inflammatory Effects of Adipose-Derived Mesenchymal Stem Cells and Their Exosomes in the Cortex and Striatum in a Nonalcoholic Steatohepatitis Model.

- 发表期刊 / 影响因子:Current stem cell research & therapy
- 发表时间:2026-Sep-17
- 第一/通讯作者:Nahid Jashirenezhad, Zahra Moayedfard, Maryam Hosseini, Zahra Jafarinezhad, Fatemeh Derisfard
- 核心结论:Brain injury associated with Non-Alcoholic Fatty Liver Disease (NAFLD) has emerged as an important health concern, yet effective therapeutic strategies remain limited. Recently, Adipose-Derived Mesenchymal Stem Cells (AD-MSCs) and their Exosomes (AD-MSCExosomes) have attracted attention as promising...
- 原文DOI / 链接:10.2174/011574888X431196260908071718

5. Food Insecurity and Its Association with the Spectrum of Steatotic Liver Disease and Hepatic Fibrosis.

- 发表期刊 / 影响因子:Gut and liver
- 发表时间:2026-Sep-22
- 第一/通讯作者:Donghee Kim, Pojsakorn Danpanichkul, Anoushka Shenoy, Karn Wijarnprecha, Aijaz Ahmed
- 核心结论:The impact of food insecurity on the subtypes of steatotic liver disease (SLD) under the updated nomenclature remains undefined. We aimed to assess the relationship between food insecurity and metabolic dysfunction-associated SLD (MASLD), alcohol-related liver disease (ALD), and metabolic dysfunctio...
- 原文DOI / 链接:10.5009/gnl260342

6. GameHorizon Suite: Multi-Horizon Data and Evaluation in Gameplay

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-09-21
- 第一/通讯作者:Yiran Wang, Xingyilang Yin, Junfu Pu, Guangzhi Wang, Kaifeng Li
- 核心结论:Modern video games provide a measurable testbed for AI models, combining abilities of visual understanding, instruction decomposition, goal planning, and precise action control over multiple temporal horizons. Existing datasets and benchmarks, however, either cover a narrow range of games, lack lang...
- 原文DOI / 链接:https://arxiv.org/abs/2609.25001v1

7. WorldCrafter: Consistent Video World Model with Implicit 3D-aware Memory

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-09-21
- 第一/通讯作者:Wangbo Yu, Kunhao Liu, Wenbo Hu, Shenghai Yuan, Chaoran Feng
- 核心结论:Video world models enable interactive exploration of dynamic environments, yet struggle to respect prior observations over long horizons and across viewpoints. We present WorldCrafter, a video world model that learns a camera-queryable implicit 3D-aware memory for this purpose. The key insight is to...
- 原文DOI / 链接:https://arxiv.org/abs/2609.24984v1

8. Critical-State RL: Diagnosing Trainable States for Multi-Turn Tool Use

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-09-21
- 第一/通讯作者:Zixiang Chen, Wenting Zhao, Zhepeng Cen, Akshara Prabhakar, Jieliu Qiu
- 核心结论:Multi-turn tool-use failures can hinge on a single model call, yet reward variation alone does not reveal which call would benefit from training. When rewards depend on later interactions, their variation can reflect downstream randomness rather than differences between the current actions. We intro...

- 原文DOI / 链接:<https://arxiv.org/abs/2609.24985v1>

二、科研公众号干货

说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取:- 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

三、每日高分经典精读

Stereotactic Body Radiation Therapy for Hepatocellular Carcinoma: Current Trends and Future Directions

- 发表期刊 / 影响因子 / 总引用量:International Journal of Radiation Oncology, Biology, Physics / IF=7.0 / 引用量:200+
- 研究背景与里程碑意义:SBRT has emerged as a definitive local treatment for HCC, but optimal dosing, patient selection, and integration with systemic therapies remain active areas of investigation.
- 核心实验设计与方法:Comprehensive review of clinical trials and retrospective studies of SBRT for HCC, including dose-escalation studies, toxicity analyses, and combination strategies.
- 关键结论与行业影响:SBRT achieves local control rates of 80-95% for early-stage HCC with low toxicity. Challenges include BCLC stage-specific outcomes, liver function preservation, and optimal sequencing with immune checkpoint inhibitors.
- 创新点:Systematic framework for SBRT dose selection based on tumor size, location, and liver function; proposed risk-adapted fractionation schedules.
- 原文DOI / 链接:<https://doi.org/10.1016/j.ijrobp.2023.01.045>

四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:Addressing socioeconomic barriers to immunotherapy access for non-small cell lung cancer in Japan.
