

一、今日前沿论文精选

1. Immunotherapy and Targeted Therapy for Advanced Gastroesophageal Cancer: ASCO Living Guideline, Version 2026.1.2.

- 发表期刊 / 影响因子:Journal of clinical oncology : official journal of the American Society of Clinical Oncology
- 发表时间:2026-Aug-17
- 第一/通讯作者:Manish A Shah, Jacob S Marzalik, Erin B Kennedy, Dana Deighton, Zahra Hamed
- 核心结论:[Box: see text]Living guidelines are developed for selected topic areas with rapidly evolving evidence that drives frequent change in recommended clinical practice. Living guidelines are updated on a regular schedule by a standing expert panel that systematically reviews the health literature on a c...
- 原文DOI / 链接:10.1200/JCO-26-01944

2. Exploiting the CXCR3/CXCL10 axis overrides tumor immune suppression by enhancing immune trafficking and effector cell priming in HNSCC.

- 发表期刊 / 影响因子:Proceedings of the National Academy of Sciences of the United States of America
- 发表时间:2026-Aug-25
- 第一/通讯作者:Cheyenne K Shinn, Robert Saddawi-Konefka, Catherina L Salanga, Shiruyeh Schokrpur, J Silvio Gutkind
- 核心结论:Immune-suppressive tumor microenvironments (TMEs) limit the impact of checkpoint blockade in many cancers by restricting the infiltration and activation of CD8+ T, CD4+ T, and NK cells. Utilizing murine models of head and neck squamous cell carcinoma, we demonstrated that intratumoral (IT) delivery...
- 原文DOI / 链接:10.1073/pnas.2522360123

3. A Narrative Review on Management of Postsurgical Scarring for Facial Cosmetic Procedures.

- 发表期刊 / 影响因子:The Journal of craniofacial surgery
- 发表时间:2026-Aug-17
- 第一/通讯作者:Joao A Goncalves, Abigail Castro, Sofia M Kone, Nicholas J Iglesias, Isabela Fleischfresser
- 核心结论:Postoperative scarring is a critical determinant of patient satisfaction following facial cosmetic surgery. Unlike scars elsewhere on the body, facial scars are exposed and subject to movement, making optimal scar management especially important for aesthetic and functional outcomes. Although numero...
- 原文DOI / 链接:10.1097/SCS.00000000000013306

4. Menopause and Increased Risk of Metabolic Dysfunction-Associated Steatotic Liver Disease.

- 发表期刊 / 影响因子:American family physician
- 发表时间:2026
- 第一/通讯作者:Jennifer Sullivan, Daniel Harris, L Elizabeth Moreno
- 核心结论:参见原文摘要
- 原文DOI / 链接:参见原文

5. CXCR4-targeted dual softener for inducing senescence therapy in hepatic fibrosis.

- 发表期刊 / 影响因子:Proceedings of the National Academy of Sciences of the United States of America
- 发表时间:2026-Aug-25
- 第一/通讯作者:Junmei Mu, Jingwen Dong, Jiahui Chen, Panle Sima, YINUO Fan
- 核心结论:Hepatic fibrosis is a central pathological driver of chronic liver diseases, including metabolic dysfunction-associated steatotic liver disease and alcohol-related liver disease, which collectively impose a growing global health burden. Fibrosis is primarily mediated by persistent activation of hepa...
- 原文DOI / 链接:10.1073/pnas.2600215123

6. Decoding the Past: An Uncertainty-Aware Deep Learning Framework for Sex Attribution in Prehistoric Hand Stencils

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-14
- 第一/通讯作者:Karel Becerra, Boris Mederos, Dean Snow, Ramón A. Mollineda
- 核心结论:Determining the biological sex of the individuals who created Upper Paleolithic hand stencils remains a challenging problem due to the absence of ground truth, population differences between contemporary and prehistoric groups, and the uncertainty introduced by image degradation. Traditional morphom...
- 原文DOI / 链接:https://arxiv.org/abs/2608.14539v1

7. Marionette: Predicting World States, Rendering Geometry, Painting Appearance

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-14
- 第一/通讯作者:Zian Meng, Zhen Li, Chuanhao Li, Qiang Li, Kaipeng Zhang
- 核心结论:Interactive game world models typically autoregress visual observations directly in pixel or latent space, forcing structured properties such as pose, geometry, and occlusion to be implicitly maintained by the same generative sequence. Over long horizons, errors in these latent world properties accu...
- 原文DOI / 链接:https://arxiv.org/abs/2608.14530v1

8. Decoding the Past: An Uncertainty-Aware Deep Learning Framework for Sex Attribution in Prehistoric Hand Stencils

- 发表期刊 / 影响因子:arXiv Preprint
- 发表时间:2026-08-14
- 第一/通讯作者:Karel Becerra, Boris Mederos, Dean Snow, Ramón A. Mollineda
- 核心结论:Determining the biological sex of the individuals who created Upper Paleolithic hand stencils remains a challenging problem due to the absence of

- ground truth, population differences between contemporary and prehistoric groups, and the uncertainty introduced by image degradation. Traditional morphom...
- 原文DOI / 链接:<https://arxiv.org/abs/2608.14539v1>

二、科研公众号干货

说明:微信公众号文章检索需要微信搜一搜等公开渠道的即时访问能力,当前自动检索模块正在优化中,建议通过以下方式自行获取:- 关注「肿瘤放疗」、「生信技能树」、「医学僧的科研日记」等公众号 - 使用微信搜一搜搜索关键词:肿瘤放疗 生信分析 - 本板块将在后续版本中接入 WeChat 公开内容 API

三、每日高分经典精读

Metabolic dysfunction-associated steatotic liver disease (MASLD): a growing global health priority and a real challenge for the internist.

- 发表期刊 / 影响因子 / 总引用量:Internal and emergency medicine / 2026
- 研究背景与里程碑意义:MASLD has emerged as the most prevalent chronic liver disease worldwide, reflecting the global rise in metabolic disorders such as obesity and diabetes.
- 核心实验设计与方法:Narrative review of epidemiology, pathophysiology, diagnostic criteria, and management strategies for MASLD.
- 关键结论与行业影响:Internists play a central role in early detection and multidisciplinary management of MASLD to prevent progression to cirrhosis and hepatocellular carcinoma.
- 创新点:Pragmatic clinical framework for internists to screen, stage, and manage MASLD in routine practice.
- 原文DOI / 链接:<https://doi.org/10.1007/s11739-026-04461-4>

四、当日总结

今日共精选8篇最新研究+1篇经典精读。关注方向:Immunotherapy and Targeted Therapy for Advanced Gastroesophageal Cancer: ASCO Living Guideline, Version 2026.1.2.
